

We help growing companies modernize infrastructure and applications with Containers, Kubernetes, and the Cloud. Located in Sandy Springs, Georgia, we are experts in helping you modernize for scale, speed, cost.

How Can Shadow-Soft Help Your Startup

Your team should not feel frustrated or confused. Shadow-Soft can help you:

Get a Proven Process

- We don't know where to start
- We don't have a clear path forward
- We don't know what tools to use

Know you're Doing Things Right

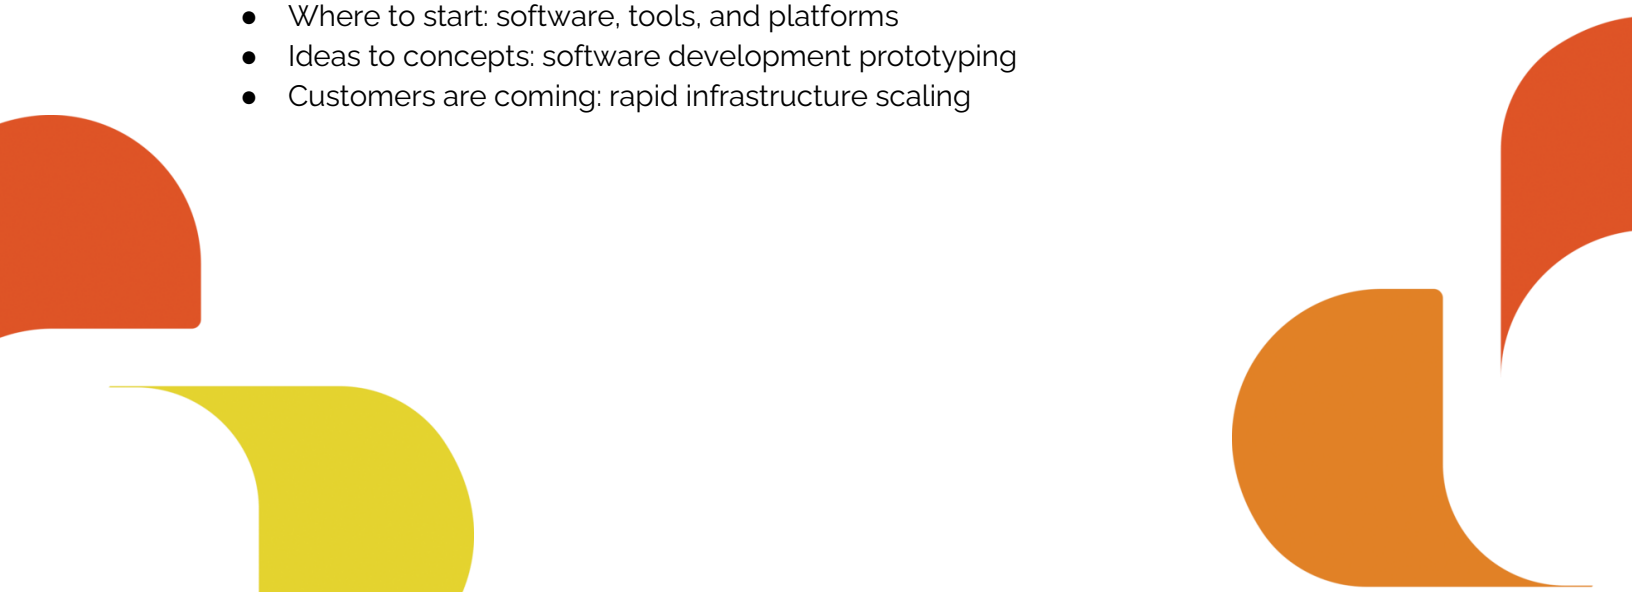

- We don't know what works well
- We don't know how to scale
- We don't use a unified language

Upskill your Team

- We don't have deep expertise
- Our developers seem confused
- We have good intentions but poor results

Free Consultation Sessions

Meet with Shadow-Soft expert business and technology leaders to explore how to accelerate your project start-up with a free 30-60 minute consultation related to these topics:

- Where to start: software, tools, and platforms
 - Ideas to concepts: software development prototyping
 - Customers are coming: rapid infrastructure scaling
- 

How to get started

- Email curiositylab@shadow-soft.com with one of the following subject lines:
 - **Where to start** — *(for help with software, tools, and platforms)*
 - **Ideas to concepts** — *(for help with software development prototyping)*
 - **Customers are coming** — *(for help with rapid infrastructure scaling)*
- In the body of the email please list a brief description of information pertinent to your application, infrastructure, and the use case that you're solving for.
- Depending on the requirements and parameters around the solution you are working on, we can schedule a meeting for 30, 45, or 60 minutes to get started!
